SUMMARY

I'm a software engineer with **5+ years of experience** in building **secure,scalable** web apps & UI with **robust** product experiences. I excel in collaborative environments, bringing a thoughtful approach to problem solving & driving business impact. My passion for technology & deep understanding of user needs ensure the development of **reliable** solutions. Committed to continuous learning, I foster an inclusive & innovative culture.

EXPERIENCE

Vibecity (SDE - III)   Aug 2022 to Jul 2023

- Developed **B2B** seller dashboard from scratch, **enabling 2000+ sellers** to manage their operations end to end.
- Implemented an in-house **Payment Wallet, Reviews Engine, KYC, Refer & Earn Program** on **B2C** marketplace, enhancing customer engagement & platform functionality.
- Worked closely with Business, Data, Product & Design teams to take complete ownership of the features on the web platform.

Koo App (SDE - III)   May 2021 to Jul 2022

- **Leading** the web team consisting of **6-8 engineers**, managing & delegating tasks and reporting directly to the CTO.
- Developed **Web platfrom** from scratch which helped the org to reach **4.7 million monthly active users**, boosting user engagement in the competitive social media sector.
- Crafted **Multi-lingual feature** adding support for 25 languages which helped to launch the product in Spain, Nigeria, Russia, Italy & other countries.
- Developed **Koo Embed** (used by media outlets like TOI), improved security against threats, content-moderation tools for operations team following modern web standards.

Greyamp Consulting (SDE - II)   May 2020 to May 2021

- Developed **Design System** (Atomic DS), modules, components, OKR charts & graphs with animations.
- Created **backend API's using Node/Express**, helped in managing infrastructure on **GCP** using K8's, Docker etc in on-premise RHEL environment.

Cognizant (Associate - Projects)   Jul 2018 to May 2020

- Worked with **TriZetto project** for **MERN** Stack Development with a global team across USA.
- Optimised Insurance Claims Engine, developed microservices for remittance & settlement features.
- Hosted knowledge sessions on React, UI Practices, Web Optimization & Design Libraries.

SKILLS

- **Frameworks & Libraries :** React, Next.js, React-native, Node.js, Express, Deno, Astro, Vite, Vue.js, Redux, React Context, Flutter, Prisma.io, Jest, Mocha, React Testing Library, Tailwind CSS, Chakra UI, Material UI, styled-components, shadcn-ui
- **Languages :** JavaScript, TypeScript, C, Java, YAML, GraphQL, HTML, CSS
- **Tools :** Figma, Amplitude, Babel, Webpack, Storybook, Jenkins, Nginx, Git, SCSS, Docker, CI/CD pipelines.
- **Integrations:** Google Analytics, Facebook Pixel, Stripe, Sendbird, Sentry, Auth0, Firebase
- **Soft Skills :** Team Management, Critical Thinking, Business Problem Solving, Test Driven Development, Communication, Task Delegation, Strategy Planning & Collaboration

EDUCATION

B.E in Computer Science & Engineering   **Aug 2014** to **Jun 2018**
Visvesvaraya Technological University (VTU)
- Developed webapps for college fests, part of core-commitee & technical team.
- Scored highest in C Programming across batch.
- Secured FIRST CLASS degree.

CERTIFICATIONS

Cognizant Academy
- Knowledge & Code Automation for App Modernization.
- Versional Agile Software Development

Udemy
- The Web Developer Bootcamp

ACHIEVEMENTS

Cognizant
- Awarded 2 times as the "**Associate of the Month**"

Hackman (Hackathon - powered by VMware)
- Built Home automation system and secured **2nd position**.

SOCIAL & BLOG

LinkedIn (linkedin.com/in/7rajatgupta)
- I post about technology trends, helping fellow developers learn & write scalable code.

Github (github.com/7rajatgupta)
- My top repository has more than **100** stars - CardView
